Berkey Hall Room 457
February 10th at 11am-12:30
Light refreshments will be provided

Abstract:
The city of Detroit has exited from the largest municipal bankruptcy in history but many financial challenges remain for city government going forward. This talk will focus on the challenges of both pre and post-bankruptcy Detroit and focus on the factors that may help determine whether the city can remain fiscally solvent over the long term. I hope to stimulate some research interest from faculty and students in the kinds of questions that need to be examined to address the long germ fiscal solvency of Detroit.
